

The Problem:

Trump won Michigan by an average of 129 votes per county.

The Response:

The Wexford County Progressives launched the 129 Votes campaign in order to replace Trump in 2020.

The Plan:

1. Recruit citizens troubled by direction of the U.S. under Trump.
2. These newcomers recruit even more people willing to work for the replacement of Trump.
3. Once the Democratic Presidential Candidate is selected in July 2020, the 129 Votes team transitions to working for that candidate's campaign.
